| <b>South Glens Falls Central School District</b><br><b>DISTRICT – WIDE SCHOOL SAFETY PLAN</b><br><b>PROJECT SAVE (Safe Schools against Violence in Education)</b> |
| <b>Commissioner’s Regulation 155.17</b>   |

**Introduction**

Emergencies and violent incidents in school districts are critical issues that must be addressed in an expeditious and effective manner. Districts are required to develop a district-wide school safety plan designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of the district with local and county resources in the event of such incidents or emergencies. The district-wide plan is responsive to the needs of all schools within the district and is consistent with the more detailed emergency response plans required at the school building level. Districts stand at risk from a wide variety of acts of violence, natural, and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools against Violence in Education (SAVE) law. Project SAVE is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in each school district and its schools.

The South Glens Falls Central School District supports the SAVE Legislation and intends to facilitate the planning process. The Superintendent of Schools encourages and advocates on-going district-wide cooperation and support of Project SAVE.

**Section I: General Considerations and Planning Guidelines**

**A. Purpose**

The South Glens Falls Central School District district-wide school safety plan was developed pursuant to Commissioner’s Regulation 155.17. At the direction of the South Glens Falls Central School District Board of Education, the Superintendent of the South Glens Falls Central School District appointed a district-wide school safety team and charged it with the development and maintenance of the district-wide school safety plan.

**B. Identification of Chief Emergency Officer**

The South Glens Falls Central School District designates the Superintendent, Kristine Orr, whose duties shall include, but not be limited to:

- a. Coordination of the communication between school staff, law enforcement, and other first responders;
- b. Lead the efforts of the district-wide school safety team in the completion and yearly update by September 1<sup>st</sup>, of the district-wide school safety plan and the coordination of the district-wide plan with the building-level emergency response plan;
- c. Ensure staff understanding of the district-wide school safety plan;
- d. Ensure the completion and yearly update by September 1<sup>st</sup>, of building-level emergency response plans for each school building;

- e. Assist in the selection of security related technology and development of policies for the use of such technology;
- f. Coordinate appropriate safety, security, and emergency training for district and school staff, including required training in the emergency response plan yearly by September 15<sup>th</sup>; and
- g. Ensure the conduct of required evacuation and lock-down drills in all district buildings as required by Education Law section 807.

**C. Identification of School Teams**

The South Glens Falls Central School District has created a district-wide school safety team appointed by the Board of Education consisting of, but not limited to, representatives of the school board, teacher, administrator, and parent organizations, school safety personnel and other school personnel. The members of the team by title are as follows:

|                 |  |
|-----------------|--|
| John Farrell    | BOE Member                                 |
| Kimberly Henkel | BOE Member                                 |
| Roger Fedele    | BOE Member                                 |
| Kristine Orr    | Superintendent                             |
| Kevin Fottrell  | Assistant Superintendent for Business      |
| Peter Mody      | High School Principal                      |
| Raymond Ruby    | Middle School Principal                    |
| Timothy Dawkins | Asst. Supt. for Curriculum and Instruction |
| Kyle Lis        | High School Assistant Principal            |
| Matthew Conrick | Principal – Tanglewood Elementary          |
| Carla Biviano   | Principal – Harrison Avenue Elementary     |
| Michael Huchro  | Principal – Ballard Elementary             |
| Robert McGough  | Principal – Moreau Elementary              |
| Ronald Gorham   | Director of School Facilities & Operations |
| Matthew Griep   | Athletic Director                          |
| Fred Strassburg | Director of Transportation                 |
| Keith Parker    | NYS Trooper                                |
| John Carey      | SRO - Saratoga County Sheriff's Office     |
| Micki Jones     | Safety Coordinator, Capital Region BOCES   |

**D. Concept of Operations**

- The district-wide school safety plan is directly linked to the individual building-level emergency response plan to the school. Protocols reflected in the district-wide school safety plan guide the development and implementation of individual building-level emergency response plan.
- In the event of an emergency or violent incident, the initial response to all emergencies at an individual school is by the building-level emergency response team.

- Upon the activation of the building-level emergency response team, the Superintendent of Schools or their designee is notified and, where appropriate, local emergency officials are notified.
- Efforts may be supplemented by County and State resources through existing protocols.

**E. Plan review and public comment**

- This plan shall be reviewed and maintained by the South Glens Falls Central School District district-wide school safety team and reviewed on an annual basis on or before September 1<sup>st</sup> of each year. A copy of the plan is available in the office of the Assistant Superintendent for Business.

- Pursuant to Commissioner’s Regulation 155.17 (e)(3), this plan was made available for public comment 30 days prior to its adoption. The district-wide and building-level plans were adopted by the School Board after the public hearing that provides for the participation of school personnel, parents, students and any other interested parties. The plan must be formally adopted by the Board of Education.

- While linked to the district-wide school safety plan, the building-level emergency response plan **shall be confidential** and shall not be subject to disclosure under Article 6 of the Public Officers Law or any other provision of law, in accordance with Education Law Section 2801-a. The building-level emergency response plan shall be kept confidential and shall not be disclosed except to authorized department or school staff and law enforcement officers.

- Full copies of the district-wide school safety plan and any amendments are submitted to the New York State Education Department within 30 days of adoption by posting this public plan on the district’s website. The building-level emergency response plan is supplied to law enforcement agencies in Saratoga County and the NYS State Police within 30 days of adoption.

**Section II: General Emergency Response Planning**

The district-wide school safety plan provides the framework for the building-level emergency response plan. The purpose of a uniform plan is to ensure district-wide continuity for emergency responses. These general emergency responses are used to assist school employees, students, parents and emergency responders to learn one system that can be used in the South Glens Falls Central School District.

**A. Identification of sites of potential emergency, including:**

- The district-wide school safety team in conjunction with local officials has identified areas outside of school property that may impact a district facility during an emergency. Factors that were considered included population, presence of hazardous materials, and potential for emergency based on national trends and proximity to district property.

- A list of areas has been identified as having the potential to impact within the district. This list has been created for reference and awareness. The list is not all-inclusive for every emergency. However, these areas have been identified as having the most probable impact on district facilities or district boundaries, should they have or create an emergency. A list of

potential community-based hazards or emergency situations has been noted in the building-level emergency response plans

- The district- wide school safety team has recognized that there are many factors that could cause an emergency within our school building. There are also factors that need to be considered when responding to an emergency. A list of potential internal and external hazards or emergency situations has been noted in the building-level emergency response plans.

**B.** The district has developed multi-hazard response guides. These guidelines are located in the building-level emergency response plan and are in ICS (Incident Command System) format. Plans for taking the following actions in response to an emergency where appropriate include, but are not limited to:

- Initial Actions
- Command Post Location (primary and secondary)
- **Shelter in Place:** Used to shelter students/staff inside the school
- Severe Weather
- Bomb Threat
- HazMat Incident
- **Hold-In Place:** Limits student/staff movement while dealing with short term emergencies
- **Evacuation:** Used to evacuate students/staff from the school
- Before, during and after school hours, including security during evacuation and evacuation routes
- Evacuation/Relocation Sites (internal and external)
- **Lockout:** Used to secure school buildings and grounds during incidents that pose an imminent concern outside of the school
- **Lockdown:** Used to secure school buildings and grounds during incidents that pose an immediate threat of violence in or around the school.
- School Cancellation
- Early Dismissal

Emergencies include, but are not limited to:

|                          |                        |                          |
|--------------------------|------------------------|--------------------------|
| Air Pollution            | Epidemic/Pandemic      | Medical Emergency        |
| Anthrax/Biological       | Explosion              | Natural Gas Leak         |
| Aviation Crash           | Fire Alarm Activation  | Radiological             |
| Bldg. Structural Failure | Flood                  | Rook Leak/Failure        |
| Bomb Threat              | Heating System Failure | School Bus Accident      |
| Civil Disturbance        | Hostage Situation      | Severe Weather Emergency |
| Crimes Against People    | Intruder Situation     | Threats of Violence      |
| Earthquake               | Loss of Building       | Water Emergency          |
| Elec. System Failure     | Loss of Buses          |                          |
| Energy Supply Loss       | Mass Casualty          |                          |

C. The district has identified various district resources that may be available for use during an emergency, including the identification of personnel, equipment and shelters.

D. Using the ICS (Incident Command System) the district has identified the school officials authorized to make decisions during an emergency. Through ICS, the procedures to coordinate the use of school district resources and manpower during emergencies are clearly defined. ICS also identifies the staff members and their backups assigned to provide assistance during emergencies.

E. The district has policies and procedures for annual multi-hazard school safety training for staff and students, including the strategies for implementing training related to multi-hazards. Beginning with the 2016-2017 school year, all staff will undergo annual training by September 15th and each subsequent September 15th thereafter on the building-level emergency response plan which includes components on violence prevention and mental health. New employees hired after the start of the school year receive this training within 30 days of hire or as part of the district's existing new hire training program, whichever is sooner. The district certifies that this training is completed during the October NYSED BEDS data collection.

The following procedures, which have been established to provide this training on an annual basis, include but are not limited to: early dismissal/go home drill, shelter-in place, hold-in-place, evacuation/fire drills, lockout, lockdown, table top exercises and Incident Command System training.

F. The district conducts drills and other training exercises to test components of the emergency response plan, including the use of tabletop exercises, in coordination with local, county, and state emergency responders and preparedness officials. A debriefing concludes each test to determine if changes to the plan are necessary.

Fire and Emergency Drills. The school district, at least once every school year, and where possible in cooperation with local county emergency preparedness plan officials, conducts one test of its emergency response procedures under its building-level emergency response plan, including sheltering, lock-down, or early dismissal, at a time not to occur more than 15 minutes earlier than the normal dismissal time.

#### **Education Law §§ 807(1-a), 807 (b): Fire and Emergency Drills**

The July 2016 amendments expanded fire drill requirements to also include emergency drills to prepare students to be able to respond appropriately in the event of a sudden emergency. The statute now requires twelve drills be conducted each school year, four of which must be lock-down drills, the remaining eight are required to be evacuation drills. There is still a requirement that eight of the required twelve drills must be completed in the first half of the school year. However, the date of completion has been changed from December 1 to December 31 of each school year.

The statute now explicitly requires schools to conduct lock-down drills, which are essential, because they prepare students and staff to respond to the highest level of threat with the most urgent action and the least margin for error. The goal is to have schools conduct drills where they immediately clear hallways, lock doors and take positions out of sight to practice their ability to put the building into a protective posture as quickly as possible. These emergency measures allow time for responding law enforcement to arrive on scene and neutralize the threat. If possible, law enforcement should be involved in the drills to help prepare students and staff for their interactions and release from lock-down by uniformed officers. However, law enforcement involvement is not required by the new legislative mandate. Other protective actions such as lock-out or shelter in place are emergency actions that are usually preceded by some degree of warning time and do not require the immediate response necessary for a lock-down. While the school should be well versed in their lock-out and shelter in place protocols, lock-down is the only type of protective action that is specifically required by the statute.

### **Section III: Responding to Threats and Acts of Violence**

A. The school refers to its Crisis Intervention Plan via the post-incident response team and the Multi-Hazard Emergency Response Guides located in the building-level emergency response plan. These are reviewed by the district-wide school safety team to ensure content and consistency throughout the district. These policies and procedures are for responding to implied or direct threats of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves, which includes suicide. The following types of procedures are addressed in the plan:

- Informing the Superintendent or designee of implied or direct threats.
- Determining the level of threat with the Superintendent and building-level emergency response team members.
- Contact the appropriate law enforcement agency, if necessary.
- Monitoring the situation, adjusting the district's responses as appropriate to include possible implementation of the building-level emergency response team.
- Communication with parent/guardian. When a student implies or specifically threatens self-inflicted violence including suicide, the School Building Principal directly contacts the respective parents/guardians.

B. The Multi-Hazard Emergency Response Guides in the building-level emergency response plan provide guidance on the district's policies and procedures for responding to direct acts of violence (i.e., Crimes Against Persons, Hostage Taking, Intruder and Kidnapping) by students, teachers, other school personnel and visitors to the school, including consideration of zero-tolerance policies for school violence. The following types of procedures are addressed in the plan:

- Inform the Superintendent/designee
- Determine the level of threat with the superintendent/designee and the building-level emergency response team.
- If the situation warrants, isolate the immediate area.

- Monitor the situation; adjust the level of response as appropriate; if necessary, initiate lockdown, evacuation, sheltering and/or early dismissal procedures as needed, if needed.
- Contact the appropriate law enforcement agency.

The South Glens Falls Central School District is allowing for the temporary covering of vision panels in spaces that cannot maintain an “Out of sight” location for a lock-down. The rooms have been examined for configuration and furniture layout. To ensure the safety of our students and staff we have found there is no other reasonable option. Temporary covering will only be permitted during emergency situations and drills. The covering must be removed promptly after the conclusion of the event.

The South Glens Falls Central School District is allowing for the temporary barricading of doors in the event a room cannot be secured during a lockdown. The staff member in such space shall make every reasonable attempt to secure the space in accordance with applicable codes however, if this is not feasible barricading will be viewed as an acceptable option

NOTE: The South Glens Falls Central School District’s “Code of Conduct” describes policies and procedures for responding to acts of violence by students, teachers, other school personnel and visitors to the school.

C. Response protocols are identified in the Building-level Emergency Response Plan in the ICS format along with definitions of ICS Roles and Responsibilities. The Multi-Hazard Emergency Response Guides address specific procedures for responding to bomb threat, intruders, hostage takings and kidnapping.

D. The following protocols for appropriate responses to emergencies are provided as examples of responses to bomb threats, hostage takings, intrusions and kidnappings:

- Identification of decision-makers.
- Plans to safeguard students and staff.
- Procedures to provide transportation, if necessary.
- Procedures to notify parents.
- Procedures to notify the media.
- Debriefing procedures.

E. The district has established policies and procedures to contact parents, guardians or persons in parental relation to the students in the event of a violent incident or an early dismissal. In the South Glens Falls Central School District, the following communication methods are used:

- **School Messenger – which is an Automated Calling System.**

#### **Section IV: Communication with Others**

The District-wide School Safety Plan provides the framework for the Building-level Emergency Response Plan.

A. The South Glens Falls Central School District is fortunate to have substantial ties to the communities of Wilton and South Glens Falls and Saratoga County. If there were an emergency within our facilities, we would call 911 for emergency assistance. If involvement is needed from other local government agencies, the Superintendent or designee would act as the contact person. Additional procedures for communications can be found in the Building-level Emergency Response Plan including local emergency contacts and phone numbers, and the NYS/BOCES Communication Flow Chart. These contacts provide guidance for obtaining assistance during emergencies from emergency services organizations and local government.

B. Arrangements for obtaining advice and assistance from local government officials, including the county or city officials responsible for implementation of Article 2-B of the Executive Law, are noted in the NYS/BOCES Communication Flow Chart.

C. If there is a disaster within the district that has the potential to impact other educational agencies within the district boundaries, the Chief Emergency Officer activates the automated call system that delivers messages to all key personnel – including principals, directors, and other crucial persons.

D. Along with the above-referenced systems, the district also maintains the following information about each educational agency in the confidential Building-level Emergency Response Plan:

- School population
- Number of staff
- Transportation needs
- Business and home telephone numbers of key officials of each such educational agency

#### **Section V: Prevention and Intervention Strategies**

The District-wide School Safety Plan provides the framework for the Building-Level Emergency Response Plan.

A. The district has developed policies and procedures related to school building security, including a secure entrance at each facility wherein visitors are observed, buzzed in, and then must sign in and obtain a badge. Further, the district employs the use of sweep cards and security cameras in its facilities.

B. The South Glens Falls Central School District has implemented procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including, but not limited to: the identification of family, community and environmental factors to teachers, administrators, parents and other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information. The district has and continues to participate in programs such as:

At the elementary Schools:

- ✓ The Saratoga Center for the Family

At the Middle School:

- ✓ WAVE (Working Against Violence Everywhere)
- ✓ The Turnabout Program
- ✓ The Saratoga Center for the Family

At the Senior High School:

- ✓ The Turnabout Program
- ✓ The Saratoga Center for the Family

Further, the District employs the following professionals in its instructional facilities:

At the elementary schools:

- ✓ Four (4) Social Worker(s)

At the Middle School:

- ✓ Three (3) Guidance Counselors
- ✓ One (1) Social Worker
- ✓ One (1) Student Conduct Coordinator

At the Senior High School:

- ✓ One (1) School Sentry Officer
- ✓ One (1) Student Conduct Coordinator
- ✓ Four (4) Guidance Counselors
- ✓ One (1) School Psychologist
- ✓ One (1) Social Worker

The District offers its facilities to the Moreau Community Center to provide care to children before and after school under the Latch Key Program.

C. Appropriate prevention and intervention strategies as noted above.

D. The district has created and supported strategies for improving communication among students and between students and staff and reporting of potentially violent incidents as noted above.

E. Hall Monitors/School Safety Personnel:

The South Glens Falls Central School District has assigned certain staff and administrators to perform hall monitoring duties as part of their responsibilities. The monitors are trained to ask students for passes if they are walking around the halls during class periods. They are also trained to watch for persons who do not have either a South Glens Falls Central School District identification badge or a valid visitor's pass. They are trained to approach such persons to inform them of the visitors policy of the district, which is that all visitors must sign in at the main office and obtain a visitor's pass.

The South Glens Falls Central School District employs a School Sentry Officer at the Senior High School.

The South Glens Falls CSD has partnered with the Saratoga County Sheriff's office in the implementation of a School Resource Officer. That officer will be in our schools daily and will be an active member of the school safety teams.

### **Section VI: Recovery**

Recovery addresses the help needed for all involved to heal and to restore the school community to "normal" operations. The District Plan supports the school building plan by deploying district resources that support the school's building-level emergency response team and the post-incident response team.

Recovery plans include mental health/emotional recovery, academic, physical and business recovery, and can continue long after the actual emergency.

#### **A. District Support for the South Glens Falls Central School District**

The Building-level Emergency Response Plan provides resources for supporting the building-level emergency response team and post-incident response team. The district's Incident Command System (ICS) identifies back-ups to relieve team members. This provides team members the opportunity to rotate personnel, to fill in if assigned personnel are unavailable and to debrief in a supportive environment.

The district realizes that some emergencies may overwhelm an individual school's ability to manage an extreme crisis. If/when the school is faced with an emergency such as threats of violence or actual violent incidents, the district-wide school safety team assists as follows:

- Acting as a sounding board regarding the implied or direct threats and/or violent acts.
- Assisting in determining the level of threat and appropriate response.
- Monitoring the situation and adjusting the district's response as appropriate.
- Assisting with parent/guardian, faculty/staff, and media communication.
- Assisting with coordinating building and grounds security in conjunction with local and State Police.
- Assisting with offering a backup post-incident response team (i.e., another school district's team and/or an outside group) as needed, if needed.

- Offering debriefing sessions as needed, working in conjunction with local, Saratoga County, and/or State emergency responders.

#### B. Disaster Mental Health Services

If/when a building-level emergency response team or post-incident response team is faced with an emergency that may overwhelm the school's ability to manage an extreme crisis, the district-wide school safety team assists as follows:

- Activating the district-wide post-incident response team.
- Offering district support and looking for continued feedback from those directly impacted during the incident, with projected plans to assist if needed during heightened stressful times such as a re-occurrence of a similar event and anniversaries of the original event.
- Assisting with parent/guardian, student, and faculty/staff debriefing and/or post-incident crisis intervention. The debriefing is also used in part to evaluate the district's plan for possible revisions. If needed, assisting in contacting additional outside mental health resources such as the National Organization for Victim Assistance (1-800-try-nova; [www.try-nova.org](http://www.try-nova.org) ).
- Assisting the schools with written statements going out to faculty/staff, parents/guardians, press releases and media requests through the district's Public Information Officer.

The district supports the recovery phase and reevaluates current multi-hazard and violence prevention practices and school safety activities.

## APPENDICES

### APPENDIX A:

The South Glens Falls Central School District consists of six instructional facilities, an Administrative Center and a combined transportation and maintenance facility.

High School  
Principal – Peter Mody  
Phone: (518) 792-9987

Oliver W. Winch Middle School  
Principal – Raymond Ruby  
Phone: (518) 792-5891

Ballard Elementary School  
Principal - Mike Huchro  
Phone: (518) 587-0600

Harrison Avenue Elementary School  
Principal – Carla Biviano  
Phone: (518) 793-9048

Moreau Elementary School  
Principal – Robert McGough  
Phone: (518) 793-9644

Tanglewood Elementary School  
Principal – Matthew Conrick  
Phone: (518) 793-5631

Administrative Offices  
Superintendent – Kristine Orr

## APPENDIX B:

### Identification of Potential Hazardous Sites:

- **COMMUNITY BASED LIST:** A list of areas has been identified as having the potential to impact the district. This list was created for reference and awareness. It is not all-inclusive for every emergency. However, these areas have been identified as having the most probable impact on district facilities or district boundaries - should they have or create an emergency. A list of potential community-based hazards or emergency situations has been noted in the building-level emergency response plans.
- **SCHOOL BASED LIST:** The district team has recognized that there are many factors that could cause an emergency within our school buildings. There are also factors that need to be considered when responding to an emergency. A list of potential internal and external hazards or emergency situations has been noted in the building-level emergency response plans.
